DAVID Z. WALKER, Market Administrator

April 2001

## APRIL MILK SUPPLY AND DEMAND ESTIMATES\*

Milk production forecasts for 2000/01 are lowered this month as lower milk-per-cow data continue to indicate a decline in early-year productivity. Although productivity gains are forecast to resume later in the year, the recovery will be slower than forecast last month. Despite higher forecast milk prices, cow numbers are expected to continue declining through the year. CCC net removals of cheese are forecast lower as cheese demand remains strong. Lower milk production and strong demand for products are expected to boost milk prices. The Class III price is projected to average \$10.80 to \$11.10 per cwt. Class IV prices are raised to \$13.00 to \$13.50 per cwt. The all milk price is forecast at \$13.40 to \$13.70 per cwt.

The United States Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital or familial status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (braille, large print, audiotape, etc.) should contact the USDA's TARGET Center at (202)720-2600 (voice and TDD).

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, Room 326-W, Jamie L. Whitten Building, 14th and Independence Avenue SW. Washington, DC 20250-9410 or call (202) 720-5964 (voice and TDD). USDA is an Equal Opportunity provider and employer.
